

## **EXPERIENCED Calibration Engineer & Dyno Operator**

**Nicholson McLaren Engines Ltd – Wokingham, Berkshire**

**This is an excellent opportunity for an experienced calibration engineer who is looking to bring their knowledge and experience to a busy, friendly team.**

**If you are looking for a new fulfilling challenge, with opportunities to further enhance your expertise, this could be the perfect job for you.**

### **THE COMPANY:**

Nicholson McLaren Engines Ltd – based near Wokingham, Berkshire is a name synonymous with engine building and engine development since the 1970s.

Due to continued growth, we currently have a vacancy for a keen individual to support and work alongside our engineering team in modern facilities where you will be required to carry out all aspect of engine dyno testing either on our engine dyno test beds or using our new / bespoke test cell equipped with a four wheel drive Dynapack chassis hub dyno.

We are looking for a proactive, confident technician who is a team focused individual possessing an excellent understanding of engine characteristics, willing to learn and take on new challenges.

### **JOB DESCRIPTION**

The successful candidate will be responsible for all aspects of engine and hub dyno operation and be experienced in all aspects of engine calibration, wiring and installation of engine management systems.

The ideal candidate should be: -

- Experienced in engine management technology.
- Confident in taking on complete engine mapping projects.
- Experienced in wiring and installing engine management systems.
- Able to build, create and optimise mapping strategy.
- Experienced in fault finding diagnosis.
- Familiar with providing remote customer support.
- Familiar with using engine dynamometers.
- Familiar with using hub dynamometers.
- Experienced in engine / dyno installation.
- Read & understand technical drawings.
- PC literate.
- Capable of developing a build book and written reports.
- Engine build experience an advantage but not essential.
- Willing to assist with engine build shop activity when required.

## **ABOUT YOU**

- Adaptable and open to new challenges.
- Possess a keen eye for quality and attention to detail. Happy working alone or as part of a team.
- Conscientious and possess excellent communication skills.

## **BENEFITS**

- 40 Hour week – Monday to Thursday.
- Excellent salary negotiable - Depending on experience.
- Auto enrolment pension scheme.
- 23 days paid holiday (increased to 26 days after 5 years) + bank holidays.
- Birthday – Day off.
- Subsidised Private Medical Insurance.
- Free parking.

**If you are an experienced engine calibration engineer and would like to expand your knowledge in a rewarding industry, be part of a family friendly company and make a real difference to our team then please send your curriculum vitae.**
